

RELAY PARTICIPANTS

The relay exchange location is at Russellville Jr. High School, located at 2000 West Parkway. Also included in your bag is your team timing chip and ankle strap.

“Participant 1” will wear the timing chip and ankle strap to run the first 7 miles to the relay exchange (strap must be worn on ankle). At the relay exchange, “Participant 2” will receive the ankle strap with chip from “Participant 1,” and then wear it for the next 6.1 miles to the finish line. “Participant 2” will need to be at relay exchange location no later than 7:45 am.

All ankle straps need to be turned in to event staff at the conclusion of the race. Event staff can be found at the finish line area wearing designated shirts. For entry and exit of relay exchange location, see map below of path to follow. Relay participants will not be able to drive to the relay point on race day. There will be trolley rides available for relay participants. Second-half participants should meet at the corner of C Street and El Paso at 7:40 am for a special trolley directly to the Jr. High relay point. First-half participants will find a cart ride from the Jr. High relay point to the intersection of C Street and Phoenix. They can then ride the C-Street Trolley back to the finish line.
